

PIPE CUTTING MACHINE

MODEL: ARIT 12

PRODUCT OVERVIEW

The **Travaza ARIT 12 Pipe Cutting Machine** is a high-performance cutting solution designed for precise and efficient cutting of **steel pipes**.

Built for professional applications, the machine ensures clean and accurate pipe cutting with minimal effort and maximum stability.

Its robust construction and powerful motor provide reliable performance for continuous operation, in construction, plumbing installations, and industrial pipeline projects.

The compact and portable design allows easy transportation and convenient use both in workshops and on job sites.

KEY FEATURES

- ▶ Powerful motor for stable pipe cutting performance
- ▶ High precision cutting system for steel pipes
- ▶ Strong and stable pipe clamping mechanism
- ▶ Durable industrial construction
- ▶ Smooth cutting operation with minimal vibration
- ▶ Compact and portable design
- ▶ Easy operation and quick setup

APPLICATIONS

- ▶ Steel pipe cutting
- ▶ Plumbing installation
- ▶ Construction pipeline work
- ▶ Industrial pipe systems
- ▶ Maintenance and repair operations

STANDARD ACCESSORIES

- ▶ Cutting blade
- ▶ Pipe Stand
- ▶ Operation tools
- ▶ User manual

TECHNICAL SPECIFICATIONS

Model:	ARIT 12
Applicable Materials	SCH40 Steel Pipe
Cutting Range:	Up to 325 mm
Max Wall Thickness	10mm
Cutting Speed	23RPM
Motor Power	750W
Power Supply	220V - 240V / 50 -60Hz
Operation Type:	Electric
