

## Pipe cutting machine 8 to 20"

- Travaza - ARIT-20 Pipe cutting machine is applicable for cutting 6"-16" and 8"-20" steel pipes of 12mm wall, totally two specifications for options of users.
- Equipped with high-performance gear reducing motor to power the hydraulic system which drives the heavy-loaded blade to cut the pipe neatly.
- A man can cut a steel pipe within several minutes with neat square or chamfered cutting edge

**ARTICLE #**

530 - 20 - 30

**Model**

ARIT - 20

### ▶ Technological Parameters

#### ■ Processing Capability

6"-16" (-0-) Steel pipe  
 8"-20" (-0-) Steel pipe  
 Max. wall thickness:12mm  
 Output RPM: 23 rotations/m

#### ■ Driving Power

Three-phase motor, Voltage: 110-415V.  
 Power capacity : 750W. Frequency: 50-60Hz  
 N.w :120kg  
 Packaging size : 850 x 720 x 1100mm

Single-phase motor, Voltage : 110-240 V  
 Power Capacity : 750-1100W. Frequency :50-60Hz  
 N:W :122kg  
 Packaging size : 850 x 720 x 1100mm

#### ■ Standard Configuration

Steel pipe support one piece  
 Alloy blade, one pieces
